The post graduate students go to a health center where they learn more and carry out community outreach activities. The objectives of these activities are:

- Expose the student to District Level Paediatric services and be able to compare and contrast with services provided at KNH
- Equip the student with teaching, supervision and mentorship skills
- Equip the student with Health Team Leadership skills
- Equip student with skills for critical review of a child health service delivery point
- Equip the student with knowledge and skills for prevention and management of the common causes childhood morbidity and mortality
- Equip the student with knowledge of child health programmes
- Improve the quality of care provided to children attended to at the peripheral health facilities

Some of the experiences and activities by some are as shown on the attached documents
